

# Counselling for Career Construction

*Connecting life themes to construct life portraits: Turning pain into hope*

**J. G. Maree**

*University of Pretoria, South Africa*

Prof. P. J. Hartung, Department of Family and Community Medicine, Northeast Ohio Medical University, United States of America.

“Counselling for Career Construction harnesses the power of story to yield an innovative, inclusive, and context-rich perspective on career development and counselling for the digital age. Through brilliant scholarly analysis and vivid practical application, Professor Kobus Maree explains and demonstrates in this book how self-reflection and reflexive self-construction – key processes of career construction – assist people across the diverse spectrum of life to use work as an instrument of self-making and self-healing. Counselling for Career Construction sends up a resounding call for us to construct and shape our lives through work with confidence and conviction. More importantly, it shows us how to answer that call.”

Prof. W. C. Briddick, South Dakota State University, Brookings, South Dakota:

“The highest compliment to either paradigm or theory is when someone kindly and carefully nudges either toward further definition and utility. Kobus Maree has accomplished the aforementioned both thoroughly and brilliantly.”
